Data Source: Maine Integrated Youth Health Survey. Middle school Survey includes 7th and 8th grades.

Based on students who reported that they felt sad or hopeless almost every day for 2 or more weeks and stopped doing some usual activities

All percentages are weighted to be more representative of the population of Maine students and to adjust for non-response.

95% CI = 95% Confidence Interval.

NA = not available. Sexual orientation is not asked in the middle school survey

** All racial categories are non-Hispanic except for "Hispanic."
